

Change Made Easy

RhyBus is a change management and workflow automation platform. We help make your organization efficient by re-thinking your business process, improving employee collaboration, and making activities transparent and compliant.

SOLUTION AREAS

- Workflow Automation & Efficiency
- Change Management & Transformation
- Compliance & Audit
- Executive Dashboards
- Machine Learning & Robotic Process Automation (RPA)
- System Integration and Optimization
- Remote Access, Work from anywhere

32 LARGE SCALE PROJECTS

OVER 1M

USERS

VALUE AT-A-GLANCE

Affordable workflow automation customized to *your* process and policies.

Built with technology you may already own.

Highly intuitive, thus no costly training.

No dedicated admin needed.

Base functional product delivered in 3-6 months.

Our solutions allow you to become efficient, informed, compliant, and ready to enable your remote resources.

Available for direct buy on BuyBoard, NASA SEWP.

KEY FEATURES

- ✓ Robotic process automation, reducing data entry errors
- ✓ Auto-validation and verification
- ✓ Integrated knowledge management
- ✓ In-place collaboration
- ✓ Two-click productivity model
- ✓ Role-based process control
- ✓ Process approval & status
- ✓ Automatic alerts & notifications
- ✓ Dashboard, metrics, & KPIs
- ✓ Bot data integration
- ✓ Integration with Power BI

RhyBus focuses on improving processes for companies in any industry

We believe in customer empathy, and deeply understand our customers' business challenges to deliver innovation. Our integrated solutions are a true 'Workflow as a Service' with robotic process automation (RPA) capabilities that streamline processes end-to-end.

Dashboard metrics and machine learning (ML) bots are an integral part of each solution. At RhyBus, everything we do is focused on customer success and outstanding total cost of ownership (TCO) as we simplify large-scale, complex processes on schedule.

Enabling flexible platform options

Familiar workflows are translated into familiar platforms like Azure and AWS, reducing your need for training and dedicated administrative resources. Because you may already own licenses to these platforms, the solutions are less expensive to deploy and will expand as you grow. RhyBus has no per-user license charges so you can grow and scale.

Offering a unique principles & capabilities

Unlike other product-centered companies, our solutions are **entirely custom**. Our core principles include: **prioritizing customer outcomes first**; **assigning functional empathy** to the product so every feature has a purpose, all optimized around **controlled total cost of ownership**. Reduced TCO is achieved without bloated consulting fees, licensing costs, or heavy administration commitments.

Air Force Financial Management Case Study

The Air Force was experiencing financial oversight in its management programs of civilian pay, military pay, travel pay, banking, and various other business functions. The agency also lacked efficient collaboration and communication with the 77 base-level financial services offices.

RhyBus helped the Air Force to streamline and increase financial management support for the agency and the base-level financial service offices. The CSP created many features and transparency between entities through the life cycle, documentation upload, archival, and discussion functionalities.

UNIQUE METHODOLOGIES

- ✓ Needs Assessment
- ✓ Functional Empathy & Discovery
- ✓ Agile Development
- ✓ Custom App Development
- ✓ CSAT Multi-Step Measures
- ✓ Enhancements Roadmap

OUR 3-STEP PROCESS

- ✓ **IMPLEMENT:** Deployments are typically launched within 3-6 months.
- ✓ **MATURE & STABILIZE:** After launch, there is continued refinement around your feedback.
- ✓ **EXPAND:** We'll develop a roadmap together, so you'll always have a growth plan.

CREDENTIALS & CLASSIFICATIONS

- ✓ SDVOSB CVE Certified
- ✓ MBE/DBE Certified
- ✓ HUB certified
- ✓ DIR & Buy Board Vendor
- ✓ Small Business Classification
- ✓ Top Secret Facility Clearance
- ✓ DUNS# 117052424
- ✓ CAGE Code: 8BJK8
- ✓ NAICS Code: Primary – 541511, Others – 541512, 541513, 541519, 518210, 541990, 541430

Solving the rhythm of business (ROB) challenge

Before automating your ROB, your process must be matured. Part of our approach is to help you advance your processes, so you not only automate *repetitive* tasks but enable seamless collaboration between teams while validating entries, so errors are caught before they enter the system. RhyBus also solves for knowledge transfer within a ROB, by capturing actions step-by-step in a personalized Knowledge Base that stores insight over time, so nothing is lost when an organization changes.

DIGITAL OFFICE

- ✦ Collaborate across distant teams
- ✦ Integrate content, eForms and policy standards
- ✦ Engage continuously with your Knowledgebase

PROCESS IMPROVEMENT

- ✦ Review current as-is model
- ✦ Develop user and role-based process flows
- ✦ Architect future process model, functionally

CHANGE MANAGEMENT

- ✦ Articulate process innovation
- ✦ Add institutionalized knowledge
- ✦ Digitally transform organizations

WORKFLOW AS A SERVICE

- ✦ Track processes end-to-end
- ✦ Verify data and redact for privacy
- ✦ Get timely alerts and notifications

AUDIT & COMPLIANCE

- ✦ Apply governance, policy standards
- ✦ Regulatory procedures w/validation
- ✦ Compliance reports and metrics

DASHBOARDS

- ✦ Track key performance indicators
- ✦ Integrate process data & metrics
- ✦ Spot trends with key indicators
- ✦ Facilitate better decisions

BUSINESS SUMMARY & REFERENCES

RhyBus' capabilities and business focus stem from deep technical foundation with Microsoft technologies. Founded in 2006, by Microsoft Alumni, the company is well known within the US Army Medical Command, Air Force Central Command, the US Department of Education, the Department of Interior, and World Bank. Our staff and management team brings over 50 years' experience and subject matter expertise in Workflow, Financial Management Systems, and Customer Service.

RhyBus has successfully been adopted by 140+ companies and organizations worldwide in an array of organizations including:

TESTIMONIALS

"The process has exceeded my expectations. What I appreciated most about the approach is the time they take to completely understand the process prior to any technical solution being developed and not focus on just the technical solution. Because of this approach, the product we received is better than I envisioned when we started this project."

"The most important part of any project is thinking through the process. If they had simply given me what I originally requested, without taking the time to discuss all aspects of the process, we would not have the quality product that was delivered."

The team worked determinedly to modify the product quickly. Often, we would provide feedback in the afternoon and by the next day or two, all adjustments we requested had been made. I have enjoyed working with this company to develop automated solutions for my organization. They worked hard to ensure we were completely satisfied." -Dept of Defense Customer
